

What a great fall we have had! I hope you have gotten to enjoy the nice weather we had this week. It got to 82 degrees at the shop on Wednesday afternoon.

Precision Planting Discounts

2020 may almost be over, but you still have the opportunity to get in on the Gen 3 20/20 Grower Rebate. Get ready for the 2021 growing season by receiving a **\$500 rebate** with the purchase of a new Gen 3 20/20.

There is also a **2% cash discount** until the end of the year if you are thinking of adding any new products to your planter!

One on One Meeting

Wondering what products to get next or you are not sure where to start? Schedule a one on one meeting; let us help you figure out what is the best for your planter and operation.

Yetter Devastators on sale until January 31st, 2021!

Are you worried about the wear and tear on your combine tires? **Yetter 5000 Stalk Devastator are on sale now!** Stalk Devastator Accelerates Residue Breakdown on top of saving equipment from stalk damage, the Devastator is a residue management tool that improves field conditions for the next planting season. Not only does the Devastator roll down cornstalks, it also crimps them—something stomper-style attachments don't do. Nutrients from the broken stalks are released into the ground, jump-starting faster microbial activity. The faster breakdown that starts with the Devastator allows growers with conventional corn heads to get the results of residue breakdown without switching to more expensive, higher-horsepower chopping corn heads. And stalk breakdown saves you from making vertical tillage and stalk-chopping passes, increasing your profitability and ROI.

Inside PTI

Precision Planting rolled out Inside PTI at the 2020 Winter Conference. This is a video series with bonus content from the PTI Farm. This subscription has one email per week with one video equaling one trial. The videos outline the story of the year, the results of the trial and reasons it turned out the way it did.

We know plot results are important tools while evaluating products and practices to implement on your farm. Precision Planting has decided to continue Inside PTI for a second season. Follow the link to sign up for Inside PTI.

Podcast

Are you a podcast listener? Looking for something different to listen to in the tractor, combine or pickup? Precision Planting has started a podcast called Smarter Every Season, available where you stream podcasts. <https://smarter-every-season.captivate.fm/>

Have a wonderful weekend!
